/openapi.json

Authorize

default

GET / API welcome

Returns a welcome message and basic API metadata.

Parameters Try it out

No parameters

Responses

Code	Description	Links

200	Successful Response
	Media type
	application/json
	Controls Accept header.
	Example Value Schema
	{
	"additionalProp1": "string",
	"additionalProp2": "string",
	"additionalProp3": "string"
	}
		No links

GET /health Health check

Returns a simple service status and environment value.

Parameters Try it out

No parameters

Responses

Code	Description	Links
200	Successful Response Media type application/json Controls `Accept` header. **Example Value** Schema `{ "additionalProp1": "string", "additionalProp2": "string", "additionalProp3": "string" }`	*No links*

Teams

GET `/teams` List teams

Returns all teams in the database.

Parameters Try it out

No parameters

Responses

Code	Description	Links
200	Successful Response Media type **application/json** Controls `Accept` header. **Example Value** Schema	*No links*
401	Missing or invalid API key.	*No links*
429	Rate limit exceeded.	*No links*

```
[
  {
